RA Application for the MAST Lab 2025

Thank you for your interest in joining the MAST Lab!

This research assistant (RA) application form is open all year and we will reach out to you if you are a good fit. We typically hire new RAs at the start of each semester (January, May, and September). All applications are kept on file and may be revisited as more positions open. Graduate students in the lab will review applications and conduct an interview with candidates with Dr. Daros.

We are looking for highly motivated and dedicated students who can dedicate several hours/week for at least 2 semesters. RAs are expected to attend biweekly lab meetings (Thursday 11:30-12:30pm), undergo training, complete RA tasks promptly, and contribute to a friendly and stimulating learning environment. Most RAs will work closely with graduate students who are overseeing projects. RA tasks vary across projects and may involve literature searches, data entry, running participants, programming surveys, distributing posters, etc.

To apply, please complete the questions below and upload your CV (or Resume) and Unofficial Transcripts in this form. RA positions are typically volunteer positions although research funding is sometimes available to pay students on an hourly basis. Additional sources of funding may come from participation in the Ignite and/or Outstanding Scholars programs at the University of Windsor. If this is something you have investigated and are eligible for, please indicate this in the comments section.

If you have any questions about this form or the RA hiring procedures, please contact Dr. Daros at alexd1@uwindsor.ca.

This form is for those individuals who are outside the University of Windsor network, thus preventing them from completing the Microsoft Form linked to the website. Please fill out this form and return it to the lab at alexd1@uwindsor.ca

1. Full Name:

2. Email address:

3. Program & Majors/Minors:

4. Year in your program:

Year 1 ☐ **Year 2** ☐ **Year 3** ☐ **Year 4** ☐ **Year 5 +** ☐

Other

5. List all psychology courses (and other courses relevant to research, such as statistics, research methods). Include the course title and semester/year.

6. Let us know why you are interested in joining the MAST Lab? (100 words max).
