LANGSTON – Community-based cultural arts organization in Seattle, WA’s Central District

- **Role:** academic partner collaborating on mixed methods, community-engaged research examining how societal systems, community, familial, and individual factors intersect to impact Black American families and youth well-being. Executive Director Ebony Arunga and I are beginning several projects in this domain and pursuing grant funding to develop and expand accessibility of programming centered on youth and family well-being.

University of Washington:

- **Center for the Study of Health and Risk Behaviors (CSHRB) T32 Training Grant (also affiliated with ADAI)**
 - **Role:** Faculty member and postdoctoral mentor on the Psychology Training in Alcohol Research (PTAR) Fellowship (Director: Dr. Mary Larimer)
- **Social Development Research Group (SDRG)**
 - **Role:** Research collaborator primarily with Dr. Jennifer Bailey. Our collaboration was initially driven by my former graduate student, Urmi Pandya and focused on examining intergenerational processes underlying

associations between parental/family substance use problems and adolescent risk for substance use and externalizing problems.

- **Addictions, Drug, and Alcohol Institute (ADAI)**
 - **Center for Community-Engaged Drug Education, Epidemiology and Research (CEDEER):**
 - **Role:** collaborating with CEDEER to coordinate and responsibly and ethically develop and implement my/my lab's community-engaged practices to recruit, enroll, and collaborate with King County-based families/parents experiencing substance use problems or diagnosed substance use disorders.
- **Center for Statistics in the Social Sciences (CSSS):**
 - **Role:** attending weekly CSSS seminars whose purpose centers on building community and engaging discussions on statistics topics, applications, and associations with methodology in an interdisciplinary setting. I plan to more formally affiliate with them later in my UW tenure and even applying for an interdisciplinary grant with a colleague from MIT/UW focused on applying novel methods and analysis to a "parenting meets robotics" collaborative project.
- **Institute of Translational Health Science (ITHS):**
 - **Role:** faculty member and member of collaborative network of interdisciplinary scholars, data analyst, and community partners/advocacy team members who facilitate community-engaged participatory research. My membership in ITHS provides supportive research, data, and analytical infrastructure; funding mechanisms; professional development workshops and opportunities; and opportunities for mentoring and interdisciplinary collaboration.
- **Centers for Studies in Demography and Ecology (CSDE):**
 - **Role:** affiliate member, utilizing collaborative connections (e.g., Dr. LaShawnDa Pittman, Sociology) and qualitative software to analyze psychology data.

Arizona State University:

- **Pathways of Risk and Resilience Lab (director: Dr. Laurie Chassin, Professor Emerita)**
 - **Role:** collaborator (and mentoring UW student collaborators) using data from the Adult and Family Development Project, a genetically informed, 20-year longitudinal study of three generations that examines the development of alcohol and drug use and substance use-related problems as well as protective factors that promote healthy development.

University of Rochester:

- **Rochester Center for Research on Children and Families (directors: Dr. Melissa Sturge-Apple & Dr. Patrick Davies)**
 - **Role:** lab alumni/current collaborator using data from NICHD R01 grant examining children's responses and adaptations to family level trauma and adversity (R01 co-PI is Dr. Dante Cicchetti, Professor Emeritus at the Institute of Child Development, University of Minnesota)
- **Mt. Hope Family Center (directors: Dr. Jennie Noll)**
 - **Role:** collaborator on aforementioned R01 grant and child maltreatment data that were collected at the Mt. Hope Family Center.

University of Oregon:

- **Center on Parenting and Opioids**
 - **Role:** building collaboration with Associate Professor Dr. Maureen Zalewski-Regnier (who is loosely affiliated with the Center). We plan on conducting secondary data analysis (and plan to write a grant to financially support these efforts) on the effect of opioids on maternal parenting during postnatal and early childhood developmental periods. One longer-term goal is to position this collaboration as an organic expansion to future collaborations and deeper collaborative integration with the Center.

Hispanic Community Counseling Services (HCCS) – Kensington, Philadelphia, PA

- **Role:** Collaborating with Dr. Ruth Kanost (research director) and local graduate students (University of Pennsylvania, Drexel University, Temple University, and Immaculata University) to develop two studies and secure foundation funding via Russell Sage Foundation (see above). HCCS is a majority Latino and Hispanic-led organization serving low-income Spanish-speaking Latino and Hispanic families and individuals in Philadelphia's Kensington neighborhood – a community navigating barriers accessing mental health resources and high rates of addiction and justice involvement.
