What aspects of this teaching assistant's (Kaleigh Ruiz) teaching were most helpful to you?

Being available and answering questions was the most helpful to me. Also being relatable.
She responded quickly to emails and was available outside of her typical office hours when they did not work for my schedule.
She's super nice!
Clear communication. Helpful answers to questions/feedback.
The one class she taught was excellent.
Kaleigh's feedback was extremely helpful for our hypo's. She is extremely knowledgeable about the field and her feedback was thorough. I also had the privilege of witnessing her lecture of the course while the Professor was gone – the lecture was engaging, intriguing, and digestible! I would definitely take her class if she was a professor as I think her teaching style is helpful in understanding complex course concepts.
During the moments in which I felt the feedback from the professor was not at all helpful or constructive, Kaleigh Ruiz was able to alleviate any of my concerns, while doing so in a timely manner.
lectured one day while Russell was out of town — amazing lecturer especially given the dry and confusing nature of commerce clause cases — made it interesting and applicable to our studies

How can this teaching assistant's (Kaleigh Ruiz) teaching be improved?

Overall an excellent TA. Sometimes it seemed like she was also unclear on the professor's expectations, however.
She talked a bit fast but I can understand talking fast when people are there to observe you, so don't count this against her. :)
I wish she was able to give more of her perspective during class or provide some tips on brightspace for certain assignments more (her hypo example was very helpful!)
I am not certain who is in charge of grading for this course, however, if it was Kaleigh Ruiz, my only suggestion would be to remember that we are in fact undergraduate students, and NOT in law school.
