12. What did you appreciate most about this class?

The quick rundown on R and everyone's help in learning how research and analysis works. It was always fun when something new came up and clicked.

13. Are there any aspects of this course you would like to see improved?

Not really. Main complaint is the time. If this were a quarter long in junior year or something, I think I would have had better output.

14. What did you appreciate most about this instructor?

Always available to help, always excited about her work. It brought up my mood.

15. Is there anything you would like to see the instructor do to improve his/her teaching?

Keep doing what you're doing.
